

Acclaim - Backup Company Data

Description:

This window will allow you to create a backup file for a company's data, either to a hard drive, a removable media drive, or any other shared media drive.

This will only make a backup for the current selected company.

Functions:

You can select the file save location by clicking the **Browse** button and choosing the location.

Click the **Backup** button to create the backup once you are ready.

NOTE: By default the backups are created in the PAYMATEW folder
